COMMUNICATION FOLLOWING ALLOWANCE

SUBMISSION OF REPLACEMENT DRAWINGS

Dear Sir:

A notice of allowance for the above referenced application was mailed by your Office on May 12, 2004. The drawings submitted with the initial filing were informal. Although the Examiner found the informal drawings acceptable for patent publication, the Applicant wishes to submit formal amended replacement drawings at this time. The new drawings consist of the following changes:

- Figure 1 is hatched.
- A separate reference number 420 is provided for each Figure 3 and Figure 3A.
- Connecting lines do not touch numbers.
- Connecting lines do not touch elements.
- Extraneous construction lines are deleted from Figure 5.
- Arrowheads are added to connecting lines, where needed for clarity.
- An eye is reintroduced to viewer 500.
- The replacement drawings correctly position viewer 500, particularly the eye.

Page 2

- The replacement drawings represent viewers 500 and 500' in a manner consistent with each other and with the balance of the drawings.
- The replacement drawings represent viewer 500 in a recognizable manner.
- Line weights are correctly expressed and some line weights are adjusted for consistency.
- The square root symbol in Figure 4B is completed.
- Many reference numbers and letters are repositioned for readability.
- In Figure 2, reference numbers 210 and 212 are correctly assigned.
- Mirror thickness is indicated in Figure 4A.
- Hidden lines are dashed.
- Edge of mirror circle and inside of housing are shown in Figure 2 for consistency.
- The sheet format is corrected, and the sheets are properly labeled.

No new matter has been introduced in the replacement drawings. The Applicant believes that amendments to the drawings are necessary for clarity of the written description requirement of 35 U.S.C. § 112 ¶ 1.

Please accept the replacement drawings as formal drawings for inclusion in the published patent.

A return receipt post card has been attached to this communication. Please date stamp the post card and return it to me to indicate receipt of this communication.

Thank you for your kind and prompt attention to this matter.

Respectfully submitted,

SUBJECT: Appl. 10/707,436 - Formal Drawings
CC: Steve Weinreich <swinv@comcast.net>
ATTACH: DRAWINGS.PDF

Dear Examiner Sikder:

The Applicant, Steve Weinreich, of Application No. 10/707,436 presented me with formal drawings that are intended to replace the informal drawings in the presently allowed application. I sent them to the USPTO by Express Mail yesterday. Even though you found the original drawings acceptable for publication, the Applicant believes that the new drawings more clearly and accurately represents his invention as described in the specification. No new matter has been added.

I am sending you this email as a courtesy so that you may be aware of the request by the Applicant to substitute these replacement drawings for the original drawings. Even though the drawings will have reached the PTO mail room today, I anticipate that there will be a delay in OIPE scanning them and providing them to you.

The file is sent to you as an Adobe Acrobat PDF file. The first two pages are the cover letter requesting substitution of the drawings. The last five pages are the replacement drawings themselves. The drawings are presented upside down as that is the way they were sent to me by the Applicant. However, if you print them, you will see them in the correct orientation.

Thank you for your kind attention to this matter, and for your kind assistance in the past.

Respectfully,

Stanley H. Kremen,
